EXP 7 - Experiment with different layouts and color schemes for an app.Collect user feedback on aesthetics and usability using

GIMP(GNU Image Manipulation Program (GIMP).

Aim:

To experiment with different layouts and color schemes for a mobile application and to evaluate user feedback on aesthetics and usability using GIMP.

Procedure:

1. Installed and opened GIMP software.
2. Created a new project with canvas size 1080 × 1920 pixels.
3. Designed a login interface for a Food App including:
    - Title (Food App)
    - Email input field
    - Password input field
    - Login button
    - Sign Up option
4. Used tools in GIMP:
    - Rectangle Select Tool to create layout
    - Bucket Fill Tool to apply colors
    - Text Tool to add text elements
5. Organized UI elements using proper alignment and spacing.
6. Created three different layouts by duplicating the same design.
7. Applied different color schemes:
    - Layout 1 → Pink theme
    - Layout 2 → Green theme
    - Layout 3 → Blue theme
8. Exported the designs as image files.

9. Shared all layouts with users and collected feedback based on:
    - Visual appeal
    - Readability
    - Usability
    - Color preference

User Feedback:

1.Layout 1 (Pink Theme)

- Simple and clean layout
- Attractive but slightly harsh color
- Button visibility can be improved
- Suitable for short usage

2. Layout 2 (Green Theme)

- Bright and vibrant design
- Good visibility of input fields
- Color is slightly too bright for some users
- Needs slight adjustment in color intensity

3. Layout 3 (Blue Theme)

- Clean and professional appearance
- Good color balance and readability
- Comfortable for long usage
- Well-structured layout with clear elements

Design Image:

1.Pink

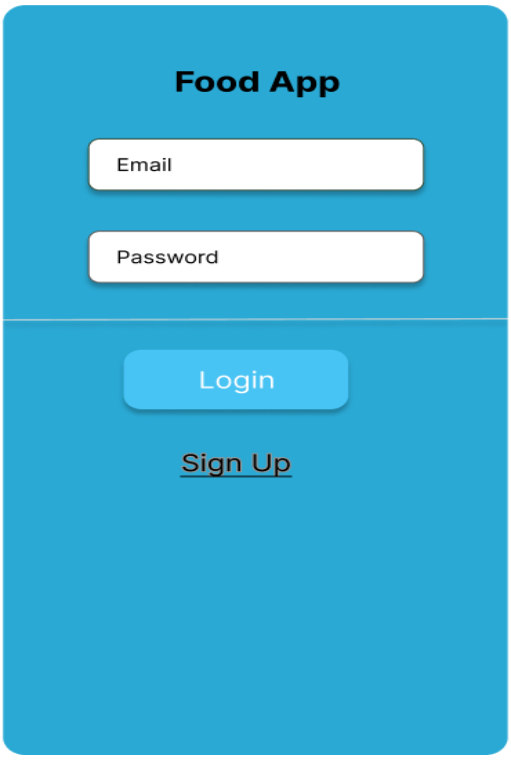
3.Blue



Result:

The experiment shows that different color schemes significantly affect the aesthetics and usability of a mobile application.Based on user feedback, **Layout 3 (Blue Theme)** was the most preferred due to its balanced color combination, better readability, and user comfort.Thus, a simple layout combined with an appropriate color scheme improves the overall user experience.
